Education

MSc	Vrije Universiteit Amsterdam , Artificial Intelligence (Cum laude)	Sept 2023 – April 2026
BSc	University of Milan-Bicocca , Computer Science	Sept 2019 – March 2023

Projects

Universal Surprise-Minimizing Agents April 2026

- I wrote my **Master's thesis** 🔗 with Peter Bloem on an **AIXI** 🔗 agent which *actively* minimizes prediction error with respect to incoming observations. I presented this work for the following research groups: DeepMind (invited by Marcus Hutter), the UAIASI Hub 🔗 and Friston's Theoretical Neurobiology Group 🔗.

Master's Projects Nov 2023 - Jan 2025

- For the Machine Learning for Graphs course, I **reproduced and extended** 🔗 an existing research paper on **causal discovery**.
- Worthy of note are also the **Reinforcement Learning** 🔗, **NLP** 🔗, **Knowledge Representation** 🔗 and **Deep Learning** projects 🔗.

Publications

Testing Emergent Bilateral Symmetry in Evolvable Robots with Vision Nov 2024

Michele Vannucci, Satchit Chatterji, Babak H. Kargar

DOI: 10.5220/0012947400003837 🔗

- Received an **honorable mention** for the best paper award 🔗 of ECTA 2024.

Internships/Jobs

Vrije Universiteit Amsterdam, Teaching Assistant in Deep Learning (Master's course) Amsterdam, NL
Oct 2025 – Jan 2026

- I held practical sessions to support students with their assignments.
- I graded the submissions, helped developing the grading guide, and wrote a few exam questions.

Digital360 🔗, AI Specialist Milan, IT
April 2023 – July 2023

- Tested the writing quality of different LLMs generating, through their APIs, titles, summaries, tags and other elements of a Web article. I automated the compilation of all the generated texts, along with the prompts, models and articles used (summing up to around 300 combinations), in a tabular format to be reviewed by experts in Web article writing.
- Developed a Python program to generate a new article draft from a White-Paper PDF by **chaining multiple LLM calls**, which was later developed into a product.

Languages

Programming Languages: Proficient in Python, C#, C, Java, SQL, JavaScript, Lisp and Prolog.

Natural Languages: Bilingual in Italian (native) and English (fluent). I know basic Dutch and French.

Interests

I really like going to the **cinema**, I write and produce **music** as a hobby and I also enjoy **reading** when I find the time. Currently I'm reading *Siddharta* by Hermann Hesse and *Gödel, Escher, Bach: An Eternal Golden Braid* by Douglas R. Hofstadter.
